

WALNUT, PANEL WITH HIDDEN VENTILATION

INFRATOP YOUR HOME'S EXCELLENT FINISH

The Infratop soffit system is a practical roof finishing method because it is easy to use in everyday life. It was designed both with functionality and aesthetics in mind. Thanks to the click system and increased panel rigidity, its installation is easy, fast and reliable. The product is durable and resistant to changing weather conditions.

The semi-matt panel surface and structure perfectly imitates wood graining and the ideally selected colours allow you to adapt it to the most commonly used elements of wood joinery.

Thanks to the use of perforation, we also took care of the proper roof ventilation and protection.

VOX soffit is a convenient and economical alternative to wooden and metal soffits currently in use.

THINKING ABOUT NATURE

Taking care of the environment is our common duty – both on an individual and business level. When creating the VOX offer, we analyze the production opportunities on an ongoing basis, and we make every effort to ensure that the carbon footprint that we leave in the ecosystem is as low as possible. Modern technological lines, the use of high-quality raw materials, recipes improved over the years and well thought-out design of the products themselves allow to maintain their excellent technical parameters and functionality.

RECYCLING
We use recycled materials in production of panels in Brown and Graphite. In this case the weight of recyclable materials is up to 80% of the total. All panels and finishing are 100% recyclable.

DURABILITY
Our products are extremely durable. The lifetime of many is 10 or even 30 years.

MAINTENANCE
There is no need for maintenance over the entire lifetime, and therefore no additional chemicals (paints, preservatives, etc.)

INSULATION
Claddings ensure proper ventilation of the facade and protect it against moisture.

HEALTH
Our products are safe for health. They do not contain harmful substances and do not release volatile organic compounds.

OAK WINCHESTER, PANEL WITH HIDDEN VENTILATION

THE PERFECT FINISH

Taking care of the practical site of our house, we choose the best quality products, those that guarantee that they will be used for years. At VOX, we offer you a soffit with a 30-year warranty, which is resistant to changing weather conditions and biological corrosion.

OAK, PANEL WITH HIDDEN VENTILATION

ON TERRACE AND BALCONY

Infratop will work well on the roofing of the terrace or balcony. Wood-like panels are maintenance-free and will beautify any outdoor space.

GOLDEN OAK, PANEL WITH HIDDEN VENTILATION

IN A COSY ATMOSPHERE

Appropriate light selection can create the atmosphere of a place. With Infratop panels you can easily install lighting which makes your terrace or balcony.

WALNUT, PANEL WITH HIDDEN VENTILATION

COMFORTABLE AND STYLISH

VOX soffit provides the perfect finish to your house. It is comfortable because it does not require any maintenance. Not only hides any imperfections, but also perfectly matches other finishing elements.

OAK, PANEL WITH HIDDEN VENTILATION

INVESTMENT IN THE FUTURE

Quick, intuitive installation, easy to clean, resistant to weather conditions and biological corrosion – thanks to these features, you can comfortably and effortlessly enjoy your home's beautiful finish for many years.

Not only does it save you time and money, as it does not require any maintenance, but it also results in lower operating costs. It acts as additional roof insulation which prolongs the life of roof structure elements.

VENTILATION

The ceiling panel with hidden ventilation SV(P) 09 has special perforation inside the grooves between the lamella.

This perforation guarantee proper ventilation of the roof area.

It is a convenient solution, because there is no need to install any additional ventilation ports, which significantly shortens installation time.

Thanks to the construction with ventilation openings, the ceiling protects the roof against moisture, fungi and mould. Additionally, the shape of the perforation holes provides protection against insects such as wasps, bumblebees and hornets.

HIDDEN VENTILATION

TYPE SV(P) 09

A patented solution. It is the recess of the panel that is perforated, which produces a better aesthetic result while still ensuring appropriate ventilation of the roof slope.
