IDEVO SPC WALL PANELS

Interiors are the spaces where we live every day — they should be both aesthetically pleasing and functional. Whether you're designing a new space or planning a makeover, choosing the right materials is crucial. Idevo SPC wall panels offer an innovative solution that transforms the character of a room quickly and easily — without unnecessary renovation complications.

INTERIOR WITH A NEW CHARACTER

Idevo are modern wall panels that combine style, durability, and ease of installation. The elegant design and wide range of patterns allow to create unique arrangements that catch the eye and enhance the prestige of any space. Idevo is the perfect way to quickly transform an interior to the highest standard.

DURABLE AND UNIVERSAL

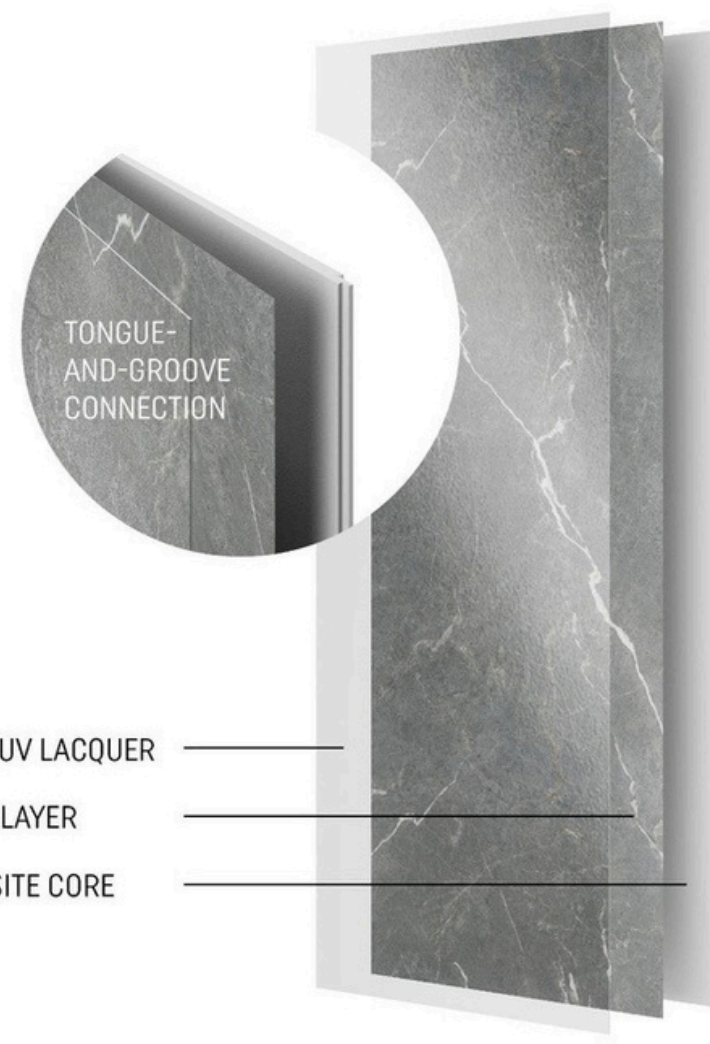

SPC wall panels are 100% waterproof and safe. They are ideal for bathrooms, kitchens, and other residential interiors, as well as commercial spaces.

The panels feature a tongue-and-groove connection system, allowing for quick installation without the need for grouting. The joints between panels are very subtle, giving the entire surface an aesthetic and cohesive appearance. This system ensures durability, stability, and an elegant wall finish with minimal installation effort.

TECHNOLOGY TAILORED TO YOUR NEEDS

Idevo panels are made using SPC (Stone Polymer Composite) technology. They feature a hard composite core, which is covered with a decorative layer and protected by a UV- resistant coating. As a result, the panels offer high resistance to scratches and damage. Panel installation is simple and intuitive, with subtle connections that require no grouting.

AVAILABLE FORMATS

$21 \frac{5}{8}'' \times 43 \frac{5}{16}''$
Long-side and short-
side panel connection

$43 \frac{5}{16}'' \times 110 \frac{1}{4}''$
Long-side panel connection

PRODUCT FEATURES

TONGUE-AND-GROOVE SUBTLE JOINTS CONNECTION

The tongue-and-groove connection of SPC wall panels ensures quick and easy installation, as well as a stable, aesthetic finish without visible joints.

The subtle jointing of SPC panels without grouting reduces the risk of mold and fungus formation.

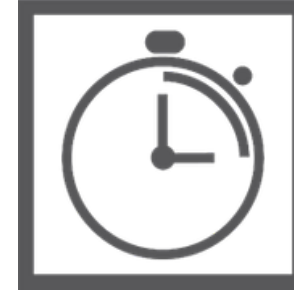

WATERPROOF MATERIAL

SPC panels are waterproof, making them suitable for installation in humid areas and allowing direct contact with water.

GLUE INSTALLATION

SPC panels can be installed with adhesive directly onto the wall or old tiles, allowing for a quick renovation without the mess.

QUICK INSTALLATION

The quick installation of SPC panels is ensured by the tongue-and-groove connection and direct adhesive application to the wall, making the work easier and reducing installation time.

SAFETY FOR YEARS

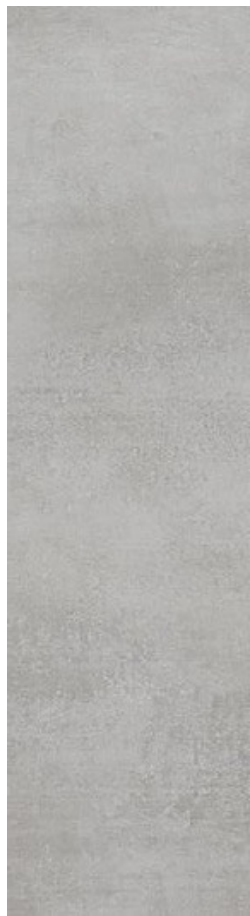

The 10-year warranty ensures the durability and reliability of the product for many years of use.

TECHNICAL DATA

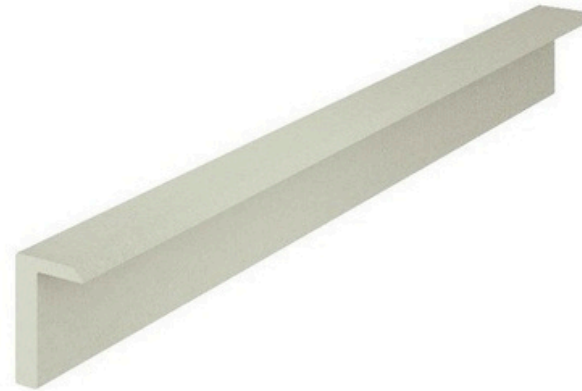

FINISHING TRIMS

When designing interiors, every detail matters, which is why for the installation of Idevo SPC wall panels, you can use A-05 finishing trims (silver or champagne) or opt for installation with 45° angled corner cuts.

SILVER

0.24 in × 106.30 in × 0.35 in

CHAMPAGNE

0.24 in × 106.30 in × 0.35 in

WHY IDEVO SPC WALL PANELS?

- Easy and simple to install – no need to hire experts
- Waterproof material
- Installation using glue and basic tools
- Quick makeover of the interior without unnecessary mess.
- Panels do not require grouting
- An alternative to tiles at a good price
